SUMMARY

Software Engineer with expertise in full stack development, have experience in automation testing and a strong foundation in data structures and algorithms.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript

Technologies: Node, React, Next.js, Express.js, TailwindCSS, Socket.io, SQL, MongoDB, Selenium

Tools: Linux, Git, GitHub

WORK EXPERIENCE

Web Developer Intern

SStruence Innovations Private Limited

Kolkata, India

Apr 2024 – Jun 2024

- Developed key pages for an upcoming eCommerce platform, including the home page, brands page, and customer service page, utilizing **NextJS** and **TailwindCSS**.
- Integrated front-end components with backend services to ensure seamless data flow and functionality.
- Worked closely with the design team to implement responsive, user-friendly interfaces, enhancing user experience across different devices.

PROJECTS

Key Ninja ([App](#) | [Code](#))

May 2023 – Dec 2023

- Developed a full-stack web application enabling users to practice, track, and improve their typing speed.
- Implemented features for practice and testing of typing skills, including performance tracking and text customization options.
- Designed and built a detailed statistics feature to provide comprehensive performance analysis and insights.
- Utilized **Next.js** for server-side rendering, **TailwindCSS** for responsive design, and **MongoDB** for efficient data storage and retrieval.

Chess Eclipse ([App](#) | [Code](#))

Sep 2023 – Feb 2024

- Engineered an engaging online multiplayer chess game, allowing users to compete with friends and others in real-time
- Integrated a chess engine capable of analyzing positions, generating moves, and simulating games. Built the engine using data structures and algorithms to optimize performance and decision-making.
- Implemented the project using **Next.js**, **Express.js**, **Socket.IO**, **TailwindCSS** and **Typescript**

Collaborative Code Editor ([Code](#))

Jun 2024 – Present

- Led the development of a real-time collaborative code editor using **Next.js** and **Express.js**, enabling multiple users to edit code simultaneously.
- Developed support multiple programming languages, allowing users to run and test code directly within the platform.
- Implemented **Socket.io** to facilitate real-time communication and collaboration among users, including live chat functionality.
- Implemented the project using **Next.js**, **Express.js**, **Socket.IO**, **Firebase** and **Javascript**

EDUCATION

Heritage Institute of Technology

B.Tech. in Computer Science and Engineering

Kolkata, India

Aug 2021 – Aug 2025
